

Conrad Hotel

51-storey luxury hotel in Dubai

Project 2012 - in United Arab Emirates

ACO. The future of drainage.

ACO Kitchen drainage and ACO Bathroom drainage for a five star Hilton Hotel in Dubai.

Conrad Dubai in the United Arab Emirates is a 51-storey luxury hotel. Located along Sheikh Zayed Road in Dubai, this mixed-use tower will contain a 19-story, 559-key, five-star hotel. Located along Sheikh Zayed Road in Dubai, this 180,000-SM mixed-use development consists of a 49-story tower, 250m tall, on top of a 6-story podium containing hotel support services and office lobby. Project facilities include a 559-key five-star hotel above a 40,000-SM Grade A office tower and a 5,000-SM outdoor leisure deck and pool area. There are 3 basement parking levels and a separate 13-level automated car parking facility providing a total project capacity for parking of 1,100 cars.
