

EKFC - Emirates Flight Catering in Dubai

Project 2011 - in United Arab Emirates

ACO. The future of drainage.

ACO Kitchen drainage for the largest flight catering kitchen of the world - EKFC in Dubai.

Emirates Flight Catering (EKFC) is a in-flight catering service based in Dubai, United Arab Emirates, which provides catering and support services for Emirates Airline and all other airlines based at Dubai International Airport. It is a subsidiary of The Emirates Group. It directly employs over 8,000 staff, and operates from Emirates Flight Catering Centre which has a capacity of producing over 115,000 meals daily. The Company provided 22 million airline meals in 2006 and over 25.5 million meals in 2007, with a combined average daily meal uplift of 70,000. The facility, with a built-up area of over 56,000 square metres is the largest of its kind in the world in terms of volume throughput. It features high levels of automation including a 2.55km long electric monorail system for the transportation of meal carts, a bin conveyor system to transfer clean items from the Warewash area to the Production and Operations Departments, and a vacuum waste system with pipes over 600m in length.
